Technical Skills / Strengths

Languages: JavaScript (ES6+), Python, Java, C/C++, SQL (Postgres, MySQL)
Frontend: React, Redux, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, Django, FastApi, Spring Boot
Databases: MongoDB, PostgreSQL, MySQL, Redis
DevOps / Cloud: Docker, Jenkins, Terraform, AWS (EC2/S3), Git, GitHub, CI/CD
Auth & APIs: REST APIs, OAuth 2.0, JWT, Postman
Coursework: Data Structures & Algorithms, Operating Systems, DBMS, OOP

Experience

Technical Support Engineer Dec 2025 – Present
Frejun Inc. (Remote)

- Optimized backend systems for WhatsApp messaging workflows using **Django** and **REST APIs**, increasing message delivery success rate by **15%**.
- Implemented log monitoring to track application behavior, reducing average response time for production incidents by **20%**.
- Collaborated with engineering teams to maintain **99.9% infrastructure availability** and assisted in deploying updates via automated **CI/CD pipelines**.

Projects

HelpDesk Management System Jan 2025 – Feb 2025
MERN, JWT, Tailwind CSS, MongoDB Atlas

- Developed a Helpdesk system improving issue tracking efficiency by **40%** using role-based access control (RBAC) and **JWT** authentication.
- Scheduled SLA monitoring via **cron jobs**, resulting in a **35% reduction** in ticket resolution time.
- Engineered real-time updates and threaded logs, enhancing cross-team collaboration transparency by **25%**.

AI-Based Email Classifier Sept 2025 – Oct 2025
MERN, Gmail API, Google OAuth, Gemini AI, TailwindCSS

- Built an intelligent classifier using **Gemini AI** and **OAuth 2.0** to automatically categorize messages with high precision.
- Streamlined data retrieval via **Gmail API** and secure REST calls, processing over **200+ emails per batch**.
- Boosted triaging efficiency by **60%**, enabling significantly faster prioritization and automated inbox organization.

Achievements

- Achieved a **1400+ CodeChef rating** and solved **300+ problems** in Data Structures and Algorithms.
- Ranked **Top 26 of 50,000+** in Smart India Hackathon (SIH) 2025.
- Qualified for **Adobe India Hackathon (Round 1)** among **262,000+ participants** nationwide.
- Secured **Dean's List (Top 10%)** for academic excellence and consistent performance.

Education

Lovely Professional University, Punjab, India July 2022 – July 2026
Bachelor of Tech. in Computer Science and Engineering : *7.33 CGPA*

Government Boys Model Higher Secondary, Anantnag, J & K Jan 2020 – Dec 2021
Intermediate; Percentage: 70%

Army Proud Scholars School, Anantnag, J & K Jan 2010 – Dec 2019
Matriculation; GPA: 8.2
